April 12, 2006

## Digital Dispatch Gets a Strong Boost in Several Vertical Markets

### Q1 2006 Results to be Announced on May 10<sup>th</sup>

**Richmond, BC, April 12, 2006** – A steady increase in orders from existing customers in roadside assistance, transit/paratransit and taxi as well as a systems integrator partner has strongly boosted Digital Dispatch Systems Inc.'s (TSX: DD) growth in all its target markets.

"Existing customers have been a recurring revenue stream for us in the taxi market but what is exciting now is to see this trend being repeated in all of our new target markets," said Michael Hryb, Vice President of International Sales for Digital Dispatch. "This validates that we are on the right track for our strategy of growth in non-taxi markets."

Some of the non-taxi customers placing orders include two AAA auto clubs; Southland Transit, an affiliate of existing Digital Dispatch customer San Gabriel Transit of El Monte, California; and a British Columbia-based systems integrator partner. In addition, one of our largest European taxi customers, Taxis G7 of Paris, France, has ordered 300 additional iPilot 8000™ mobile computers to deploy to its growing fleet. BTA (Dispatching) Ltd. of Hamilton, Bermuda, also decided to purchase another 100 Vector 530™ mobile data terminals. BTA's decision comes within a few weeks of their new system from Digital Dispatch becoming operational.

These series of additional orders account for well over \$1 million in sales.

### Q1 Earnings Release

Digital Dispatch will announce its Q1 2006 financial results on Wednesday, May 10, 2006, before the opening of the Toronto Stock Exchange. The financial statements and MD&A will also be available on the company's web site at that time.

The company will host a conference call at 1:30 PM EST on the same day to discuss the results. Please call 416-695-7848 or 1-877-888-4483 to participate in the call. A replay of this conference call will be available until Wednesday, May 17, 2006, by dialing 416-695-5275 or 1-888-509-0081 and entering access code 619102.

###

**About Digital Dispatch Systems Inc.**

Digital Dispatch Systems Inc. is a worldwide provider of mobile data solutions for fleet and mobile workforce management. Founded in 1987, we have an installed base of about 70,000 wireless mobile data devices and nearly 200 wireless data systems in four continents. We offer products and services to manage vehicle fleets and mobile workforces, including dispatch software, wireless communication infrastructure and a range of in-vehicle mobile devices.
