DDS Wireless' Taxi Business Wins New Customer in Australia Transit Business Continues to Gain Strength

Richmond, BC, April 21, 2008 – DDS Wireless International Inc.'s (TSX: DD) Taxi business unit, Digital Dispatch Systems Inc. has continued to expand its market presence in Australia with the addition of Platinum Taxi's Pty Ltd. of Melbourne, Australia as a customer. The Company already has Sydney-based Lime Taxis as its customer. This new agreement for PathFinder™ application and iPilot 8000™ mobile computers is initially for 100 vehicles with potential for further orders of iPilot 8000™ as Platinum pursues its expansion plans.

"We chose the Digital Dispatch PathFinder™ system combined with their iPilot 8000™ mobile computers after evaluating several systems available in the market. This solution best meets our needs and Digital Dispatch has a proven record of dependability and long-term customer support, which definitely contributed to our decision," said Ali Kahraman, Managing Director for Platinum Taxis.

"Winning Platinum is another major step in establishing ourselves as a vendor of choice for the taxi industry in Australia and we are definitely very pleased," said Steven Juliver, President for Digital Dispatch. "We welcome them as our valued customer and hope to continue this momentum in Australia."

DDS Wireless' Transit business, StrataGen Systems Inc., has also been gaining strength with many existing customers placing new orders. The latest customer to do so is SCR Medical Transportation (SCR) of Chicago, Illinois, who will be replacing their Vector 530™ mobile data terminals with the more advanced iPilot 8000™ mobile computers. The iPilot 8000™ deployment will be supporting a mixed application software environment that includes StrataGen's ADEPT™ application.

"The success of the SCR project really highlights the fact that the StrataGen and DDS Wireless' transit business are a perfect complement to each other for providing a complete solution for the transit operators," said Mike Nienhuis, President of StrataGen. "This shows that this merger is moving in the right direction and the customers are emerging as the real winners."

The two contracts including service agreements are worth over \$1 million.

###

About Platinum Taxi's Pty Ltd.

Based in Melbourne, Australia, Platinum Taxis currently operates with over 200 cars and 4,000 members. It is recognized as the provider of one of the best customer services in the local taxi industry.

About SCR Medical Transportation

SCR Medical Transportation is one of the three paratransit providers for Chicago Transit Authority (CTA), one of the primary transit operators in northeastern Illinois. The Regional Transit Authority (RTA) is the financial oversight and regional planning body for the public transit operators including CTA in this part of Illinois. SCR is the first of the three paratransit operators under CTA to deploy a mobile data computing system.

About DDS Wireless International Inc.

DDS Wireless International Inc. is a global provider of wireless mobile data solutions to multiple markets using state of the art technologies in real-time dispatching, vehicle location and tracking, as well as computerized routing and scheduling. Its offerings include mobile data computers, fleet management applications, communications infrastructure, project management, long-term customer support as well as multimedia mobile commerce systems for fleets. Previously known as Digital Dispatch Systems Inc. a world leader in providing wireless data dispatch systems to the taxi market for over 20 years, the Company changed its name on March 4, 2008, to re-brand itself after restructuring its operations into four market focused business units to facilitate diversification and growth, as well as effectively integrate the recently acquired businesses of Finland-based Mobisoft OY and Washington-based StrataGen Systems Inc. Visit www.ddswireless.com for more information.

DDS Wireless' Taxi business continues to operate as Digital Dispatch providing a wide range of solutions for all sizes of taxi fleets worldwide. Its Transit business operates as StrataGen Systems and provides transit solutions for all sizes of transit operators.

Forward-Looking Statements

This press release contains statements which, to the extent that they are not recitations of historical fact, may constitute forward-looking information. Such forward-looking statements may include the Company's success in generating future sales and customers in its expansion efforts including but not limited to, financial and other projections as well as statements regarding the Company's future plans, market opportunities, objectives, performance, revenues, growth, profits, operating expenses or the Company's underlying assumptions. Factors that could cause actual events or results to differ materially from those suggested by these forward-looking statements include, but are not limited to: the need to develop, integrate and deploy applications to meet our customer's requirements; the possibility of development or deployment difficulties or delays; the dependence on our customer's satisfaction with DDS Wireless International's products; the timing of entering into significant contracts; our customers' continued commitment to the deployment of our solutions; and including but not limited to other factors described in DDS Wireless International's reports filed on Sedar, including its Annual Information Form and financial report for the year ended December 31, 2007. In drawing a conclusion or making a forecast or projection set out in the forward-looking information, the Company takes into account the following material factors and assumptions in addition to the above factors: the Company's ability to execute on its business plan; the acceptance of the Company's products and services by its customers; the timing of execution of outstanding or potential customer contracts by the Company and the sales opportunities available to the Company; This list is not exhaustive of the factors that may affect our forward-looking information. These and other factors should be considered carefully and readers should not place undue reliance on such forward-looking information. All forward-looking statements made in this press release are qualified by this cautionary statement and there can be no assurance that actual results or developments anticipated by the Company will be realized. The Company disclaims any intention or obligation to update or revise forward-looking information, whether as a result of new information, future events or otherwise.
