Regional District of Nanaimo chooses StrataGen's ADEPT™ Solution; Broward County extends its ADEPT™ Functionality

Richmond, BC, May 14 2009 – DDS Wireless International Inc.'s (DD:TO) transit business unit, StrataGen Systems Inc., announces that it has been awarded the contract to provide its industry leading dispatch, scheduling and routing solution to the Regional District of Nanaimo (RDN) in Nanaimo, British Columbia. The RDN provides its HandyDART service to the elderly and persons with disabilities, allowing them to have access to health care, employment, education, shopping and recreation.

Under the contract, StrataGen will enable the RDN to increase its efficiency, capacity and safety by integrating its industry leading ADEPT™ scheduling software with DDS iMAX 8000™ MDCs, the next generation of in-vehicle computers, into a seamless paratransit solution.

"Customer service is key to the successful operation of the Nanaimo Regional Transit System," said Joe Stanhope, Chair of the Regional District of Nanaimo Board of Directors. "The ADEPT scheduling software will assist us in providing an efficient, streamlined travel experience for our many HandyDART clients."

"We look forward to partnering with the Regional District of Nanaimo, the second BC Transit agency to be using ADEPT™, as more agencies are realizing the efficiencies and integrated solutions that StrataGen can provide", said StrataGen Systems president, Matt Scheuing.

StrataGen Systems is also pleased to announce that Broward County of Florida has contracted StrataGen to significantly expand the functionality of its current ADEPT™ system with several new modules, including the addition of the Manage My Trips web booking system. This new interface will empower Broward's riders to book, view, update and cancel their trips themselves.

"Manage My Trips presents a new opportunity for both transit agencies and StrataGen to work together, enabling riders to look after their own trips and increase their ownership of the trip, while giving agencies more service options and reduced reliance on phone operations", commented Matt Scheuing.

About the Regional District of Nanaimo

The Regional District of Nanaimo is a local government body that delivers services to four municipalities and seven rural unincorporated Electoral Areas on central Vancouver Island. All four municipalities and some of the Electoral Areas receive HandyDART service.

About StrataGen Systems:

Using patented technology and expertise from all levels of the industry, combined with experience gained from installations worldwide, StrataGen Systems is an international leader in the transit industry. StrataGen Systems provides enterprise-wide and service based solutions to transit agencies of all sizes,

focusing on Demand Response, ADA (Americans with Disability Act) compliant and Special Needs providers. Striving to achieve delivery of the best results possible, StrataGen Systems prides itself on responsiveness, commitment and class leading customer service. As the only truly integrated software and hardware provider in Transit, StrataGen Systems has the unique ability within the industry to integrate comprehensive open architecture solutions from in vehicle to back office, making it the world leader in its chosen markets.

Forward-Looking Statements

This press release contains statements which, to the extent that they are not recitations of historical fact, may constitute forward-looking information. Such forward-looking statements may include financial and other projections as well as statements regarding the Company's future plans, market opportunities, objectives, performance, revenues, growth, profits, operating expenses or the Company's underlying assumptions. Factors that could cause actual events or results to differ materially from those suggested by these forward-looking statements include, but are not limited to: the need to develop, integrate and deploy applications to meet our customer's requirements; the possibility of development or deployment difficulties or delays; the dependence on our customer's satisfaction with DDS Wireless' products; the timing of entering into significant contracts; our customers' continued commitment to the deployment of our solutions; the risks involved in developing integrated software and hardware solutions and integrating them with third-party communication and other services; the performance of the global economy and growth in software industry sales; market acceptance of the company's products and services; customer and industry analyst perception of the company and its technology vision and future prospects; the success of certain business combinations engaged in by the Company or by competitors; political unrest or acts of war; possible disruptive effects of organizational or personnel changes; technological change, new products and standards; risks related to acquisitions and international expansion; reliance on large customers; concentration of sales; international operations and sales; management of growth and expansion; dependence upon key personnel and hiring; reliance on a limited number of suppliers; industry growth; competition; intellectual property; product defects and product liability; currency exchange rate risk; concentration of ownership; and including but not limited to other factors described in DDS Wireless' reports filed on Sedar, including its Annual Information Form and financial report for the year ended December 31, 2008. In drawing a conclusion or making a forecast or projection set out in the forward-looking information, the Company takes into account the following material factors and assumptions in addition to the above factors the Company's ability to execute on its business plan; the acceptance of the Company's products and services by its customers; the timing of execution of outstanding or potential customer contracts by the Company; the sales opportunities available to the Company; the Company's subjective assessment of the likelihood of success of a sales lead or opportunity; the Company's historic ability to generate sales leads or opportunities; and that sales will be completed at or above the Company's estimated margins. This list is not exhaustive of the factors that may affect our forward-looking information. These and other factors should be considered carefully and readers should not place undue reliance on such forward-looking information. All forward-looking statements made in this press release are qualified by this cautionary statement and there can be no assurance that actual results or developments anticipated by the Company will be realized. The Company disclaims any intention or obligation to update or revise forward-looking information, whether as a result of new information, future events or otherwise.

The Toronto Stock Exchange has neither approved nor disapproved the contents of this press release.
