FOR IMMEDIATE RELEASE
June 25, 2007

Second European Customer Purchases from Digital Dispatch

Richmond, BC, June 25, 2007 - Digital Dispatch Systems Inc. (TSX: DD), a leading provider of mobile data solutions, has further strengthened its presence in the European taxi market after its recent success with TAXIS G7, with a new order from its existing European customer, Sammenslutningen Københavns Taxa (TAXA 4x35) of Copenhagen, Denmark.

TAXA 4x35 required the additional units in response to an influx of new drivers and their vehicles. The PathFinder™ system is well known in Copenhagen and throughout the world for its ability to provide taxi drivers with increased revenue and profitability. The last purchase by TAXA 4x35 was in May 2005 for iPilot 8000™ units and SmartPrint™ printers. With this new order TAXA 4x35 has purchased additional iPilot 8000™ mobile computers and SmartPrint™ in-vehicle printers, taxi meters, as well as various other equipment to accommodate its growing taxi fleet, further continuing its investment in its long-term partnership with Digital Dispatch for fleet management solutions.

"The general consolidation of the taxi market in Copenhagen means an expansion of our fleet. This purchase is to accommodate this natural growth," stated Palle Christensen, Chairman of Sammenslutningen Københavns Taxa.

"We are pleased to be part of TAXA 4x35's growth and success in Copenhagen," said Michael Hryb, Vice President of International Sales for Digital Dispatch. "We are extremely happy for TAXA 4x35 that their continued efforts to attract new members are succeeding. Digital Dispatch looks forward to supporting their future business initiatives."

Digital Dispatch is also pleased to announce that it has recently received several additional sales orders which include purchases from the East Texas Council of Governments, Silver Cab of P.G. in Maryland, Longview Transit Management in Texas, SCR Medical Transportation in Chicago and All Yellow Taxi in Los Angeles. These aggregate sales orders, inclusive of the above order from TAXA 4x35, total in excess of Cdn \$1 million.

###

About Sammenslutningen Københavns Taxa (TAXA 4x35)

TAXA 4x35 is Copenhagen's oldest and largest taxi company. Founded in 1909, it today boasts a fleet of almost 800 vehicles, including taxis, business class cars and maxi taxis (used for transportation of the disabled). TAXA 4x35 is an association of independent taxi owners who employ their own drivers. TAXA

4x35 is a non-profit organization that employs over 60 people in its dispatch center and administrative offices. The dispatch center runs year round, 24 hours a day, 7 days a week.

About Digital Dispatch Systems Inc.

Digital Dispatch Systems Inc. is a worldwide provider of mobile data solutions for fleet and mobile workforce management. Founded in 1987, we have an installed base of more than 75,000 wireless mobile data devices and nearly 200 wireless data systems in four continents. We offer products and services to manage vehicle fleets and mobile workforces, including dispatch software, wireless communication infrastructure and a range of in-vehicle mobile devices.

Forward-Looking Statements

This press release contains statements which, to the extent that they are not recitations of historical fact, may constitute forward-looking information. Such forward-looking statements may include financial and other projections as well as statements regarding the Company's future plans, market opportunities, objectives, performance, revenues, growth, profits, operating expenses or the Company's underlying assumptions. Factors that could cause actual events or results to differ materially from those suggested by these forward-looking statements include, but are not limited to: the need to develop, integrate and deploy applications to meet our customer's requirements; the possibility of development or deployment difficulties or delays; the dependence on our customer's satisfaction with Digital Dispatch Systems' products; the timing of entering into significant contracts; our customers' continued commitment to the deployment of our solutions; the risks involved in developing integrated software and hardware solutions and integrating them with third-party communication and other services; the performance of the global economy and growth in software industry sales; market acceptance of the company's products and services; customer and industry analyst perception of the company and its technology vision and future prospects; the success of certain business combinations engaged in by the Company or by competitors; political unrest or acts of war; possible disruptive effects of organizational or personnel changes; technological change, new products and standards; risks related to acquisitions and international expansion; reliance on large customers; concentration of sales; international operations and sales; management of growth and expansion; dependence upon key personnel and hiring; reliance on a limited number of suppliers; industry growth; competition; intellectual property; product defects and product liability; currency exchange rate risk; concentration of ownership; and including but not limited to other factors described in Digital Dispatch Systems' reports filed on Sedar, including its Annual Information Form and financial report for the year ended December 31, 2006. In drawing a conclusion or making a forecast or projection set out in the forward-looking information, the Company takes into account the following material factors and assumptions in addition to the above factors the Company's ability to execute on its business plan; the acceptance of the Company's products and services by its customers; the timing of execution of outstanding or potential customer contracts by the Company; the sales opportunities available to the Company; the Company's subjective assessment of the likelihood of success of a sales lead or opportunity; the Company's historic ability to generate sales leads or opportunities; and that sales will be completed at or above the Company's estimated margins. This list is not exhaustive of the factors that may affect our forward-looking information. These and other factors should be considered carefully and readers should not place undue reliance on such forward-looking information. All forward-looking statements made in this press release are qualified by this cautionary statement and there can be no assurance that actual results or developments anticipated by the Company will be realized. The Company disclaims any intention or obligation to update or revise forward-looking information, whether as a result of new information, future events or otherwise.
