FOR IMMEDIATE RELEASE  
July 6, 2009

## DDS Wireless' StrataGen expands market footprint with two significant wins

**Richmond, BC, July 6, 2009** – DDS Wireless International Inc.'s Transit business unit, StrataGen Systems, today announced that it has been awarded two significant wins, Allen County, Ohio and Tampere, Finland. Combined, the opportunities total at least \$750,000 and include a variety of service offerings including core systems software, mobile data terminals (MDTs), maintenance and interactive voice response (IVR). The central component is the software application which drives vehicle routing and trip scheduling – these allow service providers to recognize significant benefits in both client service as well as overall efficiency and hard cost operating savings resulting from improved fleet utilization.

The contract with Tampere, one of Finland's largest metropolitan areas, follows the announcement of the Helsinki project earlier this year. The municipality's dispatch center, powered by StrataGen's MobiRouter application, will provide transport service for Tampere and surrounding municipalities (Nokia, Ylöjärvi, Ikaalinen, Pirkkala and Kangasala). The number of bookings per month is expected to be around 40,000. These are served by 450 taxis of Taxi Tampere, which in turn will process the routes generated with an existing implementation of DDS' TaxiBook™ Internet Dispatch Service.

StrataGen was also awarded a comprehensive order to equip Allen County, Ohio's Regional Transit Authority's Uplift Service. The solution for Allen County includes the installation of ADEPT™ Enterprise software, latest generation MDT in-vehicle hardware and related services including interactive voice response and will address Allen County's paratransit as well as its fixed route needs.

"We are pleased to see continued wins in key markets worldwide and look forward to working with these customers", stated StrataGen's President Matt Scheuing. "These customer wins further underscore the flexibility of the end-to-end StrataGen solution, the integration with other DDS offerings and our ability to serve our customers in a wide variety of operating environments."

### About StrataGen

Using patented technology and expertise from all levels of the industry, combined with experience gained from installations worldwide, StrataGen Systems is an international leader in the transit industry. StrataGen provides enterprise-wide and service based solutions to transit agencies of all sizes, focusing on Demand Response, ADA (Americans with Disability Act) compliant and Special Needs providers.

Striving to achieve delivery of the best results possible, StrataGen prides itself on responsiveness, commitment and class leading customer service.

StrataGen Systems has the unique ability within the industry to integrate comprehensive open architecture solutions from in vehicle to back office, making it the world leader in its chosen markets.

#### **Forward-Looking Statements**

This press release contains statements which, to the extent that they are not recitations of historical fact, may constitute forward-looking information. Such forward-looking statements may include financial and other projections as well as statements regarding the Company's future plans, market opportunities, objectives, performance, revenues, growth, profits, operating expenses or the Company's underlying assumptions. Factors that could cause actual events or results to differ materially from those suggested by these forward-looking statements include, but are not limited to: the need to develop, integrate and deploy applications to meet our customer's requirements; the possibility of development or deployment difficulties or delays; the dependence on our customer's satisfaction with DDS Wireless' products; the timing of entering into significant contracts; our customers' continued commitment to the deployment of our solutions; the risks involved in developing integrated software and hardware solutions and integrating them with third-party communication and other services; the performance of the global economy and growth in software industry sales; market acceptance of the company's products and services; customer and industry analyst perception of the company and its technology vision and future prospects; the success of certain business combinations engaged in by the Company or by competitors; political unrest or acts of war; possible disruptive effects of organizational or personnel changes; technological change, new products and standards; risks related to acquisitions and international expansion; reliance on large customers; concentration of sales; international operations and sales; management of growth and expansion; dependence upon key personnel and hiring; reliance on a limited number of suppliers; industry growth; competition; intellectual property; product defects and product liability; currency exchange rate risk; concentration of ownership; and including but not limited to other factors described in DDS Wireless' reports filed on Sedar, including its Annual Information Form and financial report for the year ended December 31, 2008. In drawing a conclusion or making a forecast or projection set out in the forward-looking information, the Company takes into account the following material factors and assumptions in addition to the above factors the Company's ability to execute on its business plan; the acceptance of the Company's products and services by its customers; the timing of execution of outstanding or potential customer contracts by the Company; the sales opportunities available to the Company; the Company's subjective assessment of the likelihood of success of a sales lead or opportunity; the Company's historic ability to generate sales leads or opportunities; and that sales will be completed at or above the Company's estimated margins. This list is not exhaustive of the factors that may affect our forward-looking information. These and other factors should be considered carefully and readers should not place undue reliance on such forward-looking information. All forward-looking statements made in this press release are qualified by this cautionary statement and there can be no assurance that actual results or developments anticipated by the Company will be realized. The Company disclaims any intention or obligation to update or revise forward-looking information, whether as a result of new information, future events or otherwise.
