FOR IMMEDIATE RELEASE
December 4, 2009

DDS Wireless' StrataGen Unit signs 3 contracts totaling \$1.2 Million

Heikki Karintaus Appointed to Board of Directors

Richmond, BC, December 4, 2009 – DDS Wireless International Inc. announces today that its Transit business unit, StrataGen Systems, has closed three significant contracts totaling \$1.2 million.

The largest contract is with Avail Technologies Inc. of Pennsylvania to supply Mobile Data Terminals to a number of Avail's clients across North America. Avail is a StrataGen partner focused on mid-market fixed route Transit applications, one of the largest market segments in the industry.

"We are very excited about our long term partnership with Avail as it provides StrataGen with market access to extend its reach from our core market for routing and scheduling systems for Paratransit services", states Matt Scheuing, President of StrataGen Systems Inc. "The fixed route and small fleet Transit markets represent large new market opportunities for StrataGen."

StrataGen also received a services contract from Broward County in Fort Lauderdale Florida, to provide services to enable the County's call center centralization project. Broward County has been a StrataGen customer for over 5 years and this project further extends their investment in StrataGen's software. "The Broward County contract is significant for StrataGen as it reflects a common trend within our client base towards services centralization. Centralization of services is a natural application for StrataGen's Adept system due to its ability to efficiently handle very large transaction volumes from multiple transit services providers", states Matt Scheuing.

Finally, StrataGen through its UK office, was awarded a contract to provide a comprehensive transit fleet management system to a County in Eastern England. The contract includes the latest generation of DDS Wireless' iMax 8000 Mobile Data Terminals, a comprehensive enterprise transit management system and related services and maintenance contracts.

DDS Wireless Appoints Heikki Karintaus to the Board of Directors

The Board of Directors of DDS Wireless International Inc. has appointed Mr. Heikki Karintaus, M. Sc. (Eng.) to the Board effective January 1, 2010. Mr. Karintaus is a co-founder of Mobisoft OY which was acquired by DDS in October of 2007, and has led Mobisoft as its Managing Director since 1994. Mr. Karintaus has announced that he will step down from his role as Managing Director of Mobisoft, but will continue to serve as a Strategic Advisor to the DDS Wireless board of directors and senior management.

"As a founder and the Managing Director of Mobisoft OY, Heikki built a successful business centered on hosted solutions for fleet management which maximize subscription and transaction based revenues. Heikki's knowledge of these business models and the European market will provide an important contribution to our strategy going forward", states Vari Ghai, CEO and Chairman of DDS Wireless International Inc.
